Contents

Overview

Notes on using `blogdown` and `hugo` for website development.

Install

```r
packages <- c("blogdown")
if (require(packages)){
  install.packages(packages,dependencies = T, force = T)
    require(packages)
}
library(blogdown)
```

```r
# -------- Hugo --------
# install
blogdown::install_hugo()
# check version
blogdown::hugo_version()
```

```
[1] '0.37.1'
```

```r
# update version. latest versions: https://github.com/gohugoio/hugo/releases
blogdown::update_hugo()
```

```
NULL
```
